Installation instruction

● Installation Steps

3. Assemble The Bottom Basket

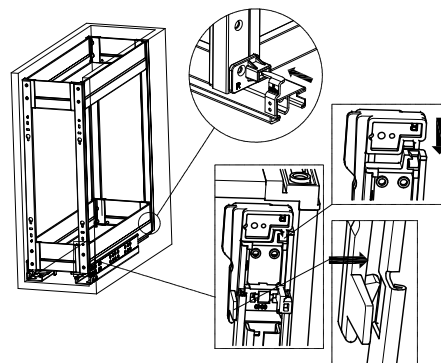

4. Assemble The Second-level Basket.

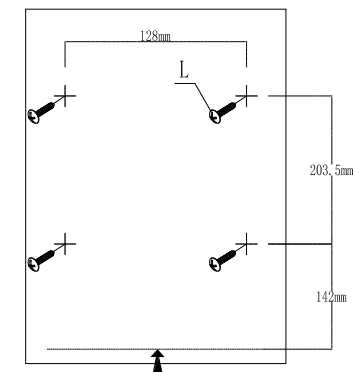

● Product Specifications and Applicable Cabinet Width

5. Install The Basket

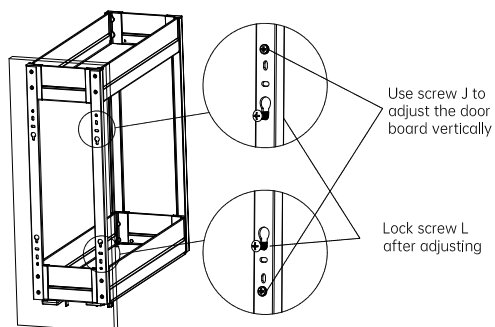

6. Install The Door Board

Lock four screws L onto the door panel without tightening

Drill holes in the door bottom board using the size-guide paper

7. Install the cabinet door board: Align the door board with the four key holes, hang it on the pull-out basket, and adjust it to be level before tightening the screws.

8. Secure the rear left pulley to the basket.
